## Exceptional Student Education and Support Services

Family Christian Center School (FCCS) provides *limited* support services to special education students (depending on program space and sufficient staff which is determined by the day to day staff needs of the school per administration.) *\*Private schools are not required to provide special education services, however, it is our heart and passion to support these students to the best of our ability.*

**NOTE: FCCS will only approve students requiring accommodations if we are able to provide the necessary support for the student's academic success. If a student requires support that is beyond our program's ability to provide, it may be determined that FCCS is not the best fit for the student's needs.**

Documentation in advance is **mandatory** for beginning the process for enrollment in the FCCS Special Education program. This includes any documentation for learning (*academic*) and/or behavioral concerns, past or present, whether officially diagnosed or not, that will require monitoring by the school.

- Documentation may include *A Psychological Evaluation within the last year, Neuropsychological Evaluation, any former school notes relating to behavior or academics, an Individualized Educational Plan (IEP), a Service Plan (SP), and/or a medical diagnosis letter.*
- Parents must submit the most recent academic achievement test.

FCCS may be able to accommodate those with the following exceptionalities, upon review and a successful entry assessment and evaluation:

- Speech/Language Disability as indicated on a Lake County School district IEP or SP.
- Specific Learning Disability, as indicated on a Lake County School district IEP or SP. **Note: FCCS will not accept students who fall more than one (1) year below grade level as we do not offer a Modified Curriculum.**
- Medical Needs (*as diagnosed by a medical professional*), upon review and approval by school nurse.
- Others (*at the discretion of the administrative and support team*).

**At this time, FCCS is unable to accommodate Varying Exceptionalities Classrooms or Student Specific Support (one to one) Facilitation or small group settings.**

All submitted applications will be reviewed by our administrative team, and a decision will be made based on the school's ability to provide the needed support services.
